

*This guide takes you step-by-step through the process of setting up a new email account on your iPhone or iPad.*

## Check your password

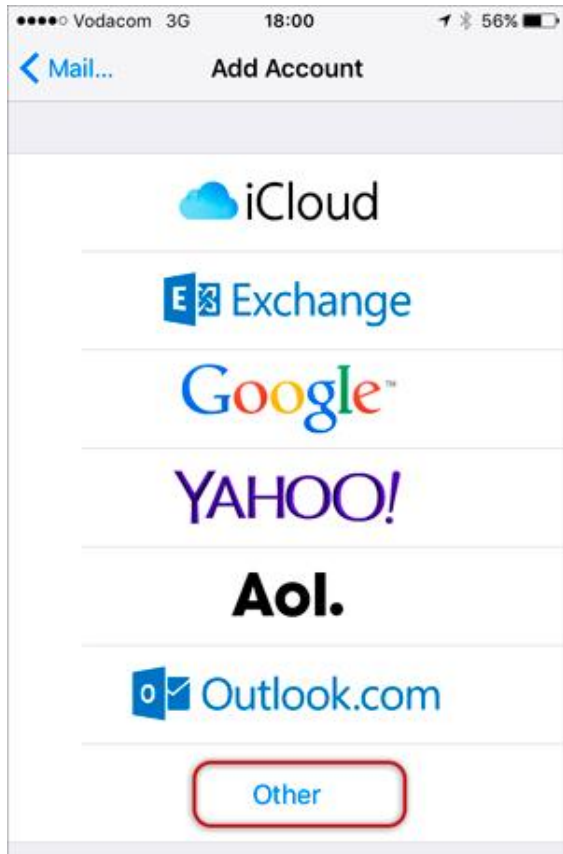

- *First, check your password by browsing to [Webmail](#) and trying to log in. If you aren't able to log in, then you have the incorrect password. Forgotten passwords can be reset – you will need to get your domain or web administrator to update it for you.*

## Add Mail Account

1. **Select the settings icon** on your home screen

2. **Select Passwords & Accounts**
3. **Select Add Account**
4. **Select Other** from the menu

5. Select **Add Mail Account**

## Enter your account information

1. Enter your Name, Email & Password > **Next**

Vodacom 3G 18:01 56%

Cancel New Account Next

Name Name Surname

Email name@example.com

Password ●●●●●●●●

Description Example

## Configure Incoming and Outgoing Servers

1. Select **IMAP**
  2. Scroll down to **Incoming Mail Server** and enter all the relevant details, then do the same for **Outgoing Mail Server**, as in the screen below and then select **Next**.
- Ensure that **User Name** is the full email address
  - **User Name & Password** are the same for both **Incoming & Outgoing** servers

IMAP POP

Name Name Surname

Email name@example.com

Description Example

INCOMING MAIL SERVER

Host Name mail.example.com

User Name name@example.com

Password ●●●●●●●●

OUTGOING MAIL SERVER

Host Name smtp.example.com

User Name name@example.com

Password ●●●●●●●●

## Verify Server Identity

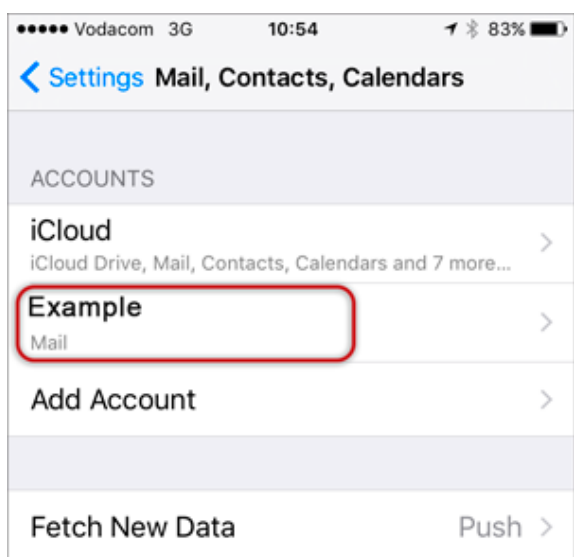

1. You may receive a prompt asking you to verify the incoming and outgoing servers – you can click **Continue** for each.

2. **Save**

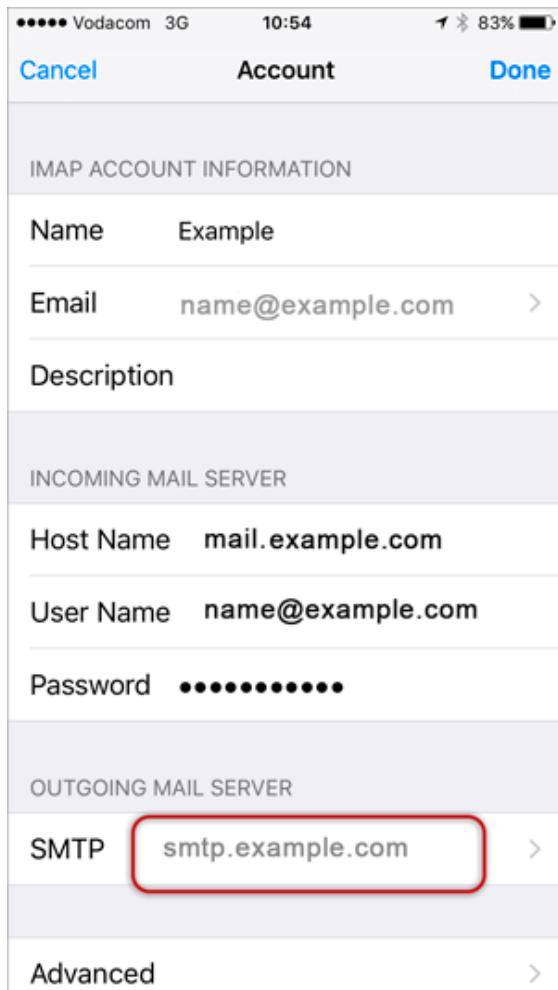

3. Choose the **new account** that you've just created

then

#### 4. Choose the **SMTP** server

then

5. **Check** the SMTP settings:

- **User Name** is the full email address
- **Use SSL** is off
- **Authentication** is Password
- **Server Port** is 587
- **> Done**

**You have completed your account setup.**

*Congratulations! You have now successfully configured your email account on your iPhone.*
